

INTELLIDEN

Design Style Guide v1.0 | Specialized Home Automation Ecosystem

01. Visual Philosophy

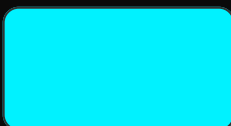

The **Techno-Minimalist** aesthetic bridges professional engineering utility with domestic comfort. It prioritizes high-contrast "Dark Mode" layouts for battery efficiency on OLED wearables and depth perception in AR environments.

02. Color Palette

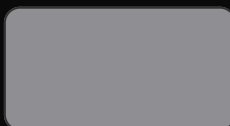

Deep Space

#0A0A0A

Electric Cyan

#00F2FF

Steel Grey

#8E8E93

Warning Amber

#FFB800

Amethyst

#AF52DE

03. Typography

PRIMARY: INTER

The quick brown fox jumps over the lazy dog.

Used for UI elements, navigation, and readability across all devices.

TECHNICAL: JETBRAINS MONO

SENSOR_READING: 24.5°C | POWER_DRAW: 450W

Used for engineering logs, energy stats, and data visualization.

04. Component Standards

Iconography

2pt Stroke width. Non-filled. In AR, icons

Shape & Depth

12px Border radius for cards. Glassmorphism

feature a subtle glow to prevent bleeding into real-world textures.

(20% blur) applied to Tablet and AR HUD for environmental context.
